### **DETAILED ACTION**

1. Claims 20-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on 12/3/2004.

#### ***Oath/Declaration***

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c).

The name of the inventor has been changed.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 5-6, 8, 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 5 and 6 use the indefinite alternative term "or more". Suggest positive recitation of --at least one additional segment--.

Claims 8 and 18 do not limit the subject matter of claims 1 and 9 respectively, but merely add a use for same. As such, these claims are confusing under the above statute and not in conformance to 35 USC 112, fourth paragraph as they do not limit the subject matter

of the preceeding claim, the blank itself. These claims should be rewritten in independent form.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-2, 4-7, 9-10, 12-14, 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Westbroek et al..

Note figures 13 and 16 where the tubes have a first top side and a second bottom side and unequal edges and wherein the sides are flush at top and bottom segments.

As to claims 2 and 4, the tube is round.

As to claims 5-6, adjoining the top and bottom are additional segments (along the circumference) with flush interfaces.

As to claim 9, both figures 13 and 16 have stepped interfaces at inner sides of top and bottom.

***Allowable Subject Matter***

7. Claims 3, 11, 15-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3612

8. Claims 8, 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Claim 19 is allowed.

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. All illustrate tailor welded blank technology.
